DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, 19-27, 29-37, drawn to facilitating development of programs, classified in class
 717, subclass 100.
 - II. Claims 15-18, 28, 38-39, drawn to document processing/spreadsheets, classified in class 715, subclass 503.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are as follows:

Group I claims are substantially directed to development of programs to create applicant's invention, which is directed to class 717/100 (Software Program Development Tools).

Group II claims are substantially directed to Spreadsheet manipulation, which is directed towards class 715/503 (Document Processing/Spreadsheets).

- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
